"Lord, give me; us, Thailand for Christ!"
dlleak@gmail.com

David Leak

I always wish to acknowledge each Church & individual that the Lord uses to support this Ministry; thank you all!
 My last report explained the reason for such a long lapse in reports from January until April. I now need to explain why this report is so late as well. After being discharged from the hospital in April & @ my 1st follow-up Doctor's appointment; she wanted to admit me-again because my CPK # had risen. She said the only way to get it down was a forced IV. I explained to her I simply couldn't afford it. So; she allowed me to take an IV that day in one of the exam rooms instead, in hopes it would help in decreasing the #. In addition to initially seeing her; a Neurologist, she also had me see a kidney Doctor. There's a lot to report, but I don't have room for all the details. Long story short; at my 2nd follow-up appointment the CPK # had risen again from around 800, to almost 2000; the normal range being from 20 to 198. One of the reasons being; from severe dehydration. That day; which was near the 2nd week of May, she insisted that I needed to be admitted again & placed on a forced IV to get the # down. I had to make arrangements that day; which was a Wednesday, & was admitted for a 2nd time the next day; Thursday. I had to stay this time until Sunday evening. The nurse that inserted the IV the 1st day and drew blood for testing, told me that I was so severely dehydrated that my blood was coming out very slowly. She literally told me she would have to change places in order to get enough blood for testing. After the initial blood test; I was visited by an Endocrinologist; she told me that I most likely have Hyperthyroidism & Adrenal Gland issues too. She then ordered more blood tests & introduction of medicine dosages into my bloodstream to determine which amount would be best as an initial dosage. She explained to me that she had to be very careful with the dosage, as it could trigger a heart attack if administered improperly. This series of tests encompassed 90 minutes each; each of the 30 minute intervals they took blood & injected me with medicine each time as well. I also had a CT scan on that Saturday which revealed in my follow-up appointment with the Endocrinologist that I perhaps have a problem with my Pituitary Gland. After my 1st follow-up appointment with her I had another blood test that will take 2 weeks for the results to come back. This is all pretty much a summarized explanation, but I do ask you to continue to pray for me; as this has caused another lapse in my report schedule getting back to normal & for this I do once again beg your pardon. I do ask for your continued prayers; for not only the time constraint & burden, but the financial strain that it has put me under over the course of the last 2 months as well.

Also...continue to pray that the Lord will give me; us, Thailand for Christ!

2 of my English students; Brad & Jubilee, won't be returning to class. Pray for me that 2 of the students pictured here on the left will return to learn English; Lord willing.

Physically; I am feeling much better, strength-wise too. I was; for some time prior to my 1st hospital stay, experiencing a lot of what I thought was just simply being tired, but came to find out it was interconnected with stress. The stress affected my Adrenal Glands; which in turn affected my BP being so high. That in turn affected my kidneys & muscle issues too. All of this in so interconnected & has caused me to experience some down time.
